**Subject:** RE: Asbestos link  
**Attachments:** Asbestos Draft Risk Evaluation 12-12-19 (w chloralkali).docx

All,  
It sounds like I am not the only one on the workgroup experiencing issues with Sharepoint today, so I am attaching the latest version of the document with the chloralkali section added. If you are giving up on using Sharepoint, use this one to track your changes and they'll needed to be added to the template later. Apparently Microsoft is trying to force us to use Word Online which is why it is now the default when you open the document on Sharepoint. You need to shrink your screen to see the option to edit in just Word. The other option is to use the dropdown menu before you open the document by right clicking and then use the Edit in Word option to open the document.  
Andrea

**Subject:** Asbestos link

All,  
Here is the link to the Sharepoint site for the Draft RE. As I mentioned yesterday, it is very rough and not complete. This is the first attempt to start pulling together the sections that we have so far. Nothing has been updated after the human hazard section. I will be adding a new exposure section on chlor alkali today if I can get to it. I also have not had time to add "standard language" that is common to all 10 draft REs.

Please start looking this over for big picture (or smaller!) issues that need to be addressed sooner rather than later. Please send any of those kinds of issues to me by Wed., 12/19 (or call me). Otherwise please start adding comments.

A few reminders

- PLEASE do not make formatting changes at this point--this is a very rough draft and a lot of changes to the template have been needed for asbestos compared to the other 9 chemicals. I am only concerned about content right now. I know that it is frustrating that the sections are all mis-numbered, but I will get to that eventually.
- Remember to make comments in Sharepoint using Word and not Word Online.
- I may take the document down again next week to work on it since Sharepoint has been so unpredictable. If so, I will let you all know.

Thanks.  
Andrea
